Dear Medical Personnel:

It has come to our attention that there may be interruptions in the supply of anti-viral medications and certain medical supplies in the medical supply distribution system due to the increase in influenza cases across the nation. We have received some reports within the state of antiviral and medical supply shortages from their normal suppliers.

The North Dakota State Medical Cache has substantial quantities of these pharmaceuticals and medical supplies on hand to address shortfalls if they occur. Medical facilities and pharmacies that are reselling these pharmaceuticals and supplies are expected to pay the cost of replacement of materials obtained from the North Dakota State Medical Cache. Please do not hesitate to utilize this resource if you are experiencing shortages.

To order anti-viral medications from the State Medical Cache online, visit the HAN Assets website at [hanassets.nd.gov](http://hanassets.nd.gov). <http://hanassets.nd.gov/>

If you have questions or need assistance, call 701-328-2270.

How to order from ND HAN Assets: [Ordering from ND HAN Assets](#)

Thank you.
